About Us

MGP (Employee Benefits) has been providing specialist solutions, consultancy and support services to Companies, Pension Scheme Trustees, Business Owners and Individuals since 1995.

In an ever-changing business and financial world, we understand the high value clients place on integrity, efficiency and professionalism.

Operating in the niche market of core employee benefits – pension, health and risk products - our clients range from PLCs to Sole Traders. We believe that getting the foundations right by delivering sustainable, longer-term solutions provides a stable base from which to build on.

The way we operate is not much different to any other directly authorised and regulated firm. What sets us apart is the level of proactive support we provide to our clients using the combined strengths of the management and servicing teams.

The efficient and progressive management of the business has meant that we very rarely advertise for new business preferring instead to grow through the referral and recommendation of clients and professional connections.

Our clients would recommend using MGP.
